<b>2018 NTA ID</b>	2018-0544
<b>Total Proposed NTA Cost</b>	\$209,006.00

**CHIN7: Continue to restore degraded fish habitat, via projects in Lead Entities' four-year work plans → CHIN7.1: Protect and/or restore critical habitat for salmon populations.**

There are a number of current opportunities in the Sekiu and Clallam Bay vicinity, many of which are high priorities in the Western Strait of Juan de Fuca Salmonid Habitat Conservation Plan. Negotiations with landowners and partner organizations has already begun, so success is likely. The following acquisitions in the Clallam Bay vicinity are priorities in the Western Strait of Juan de Fuca Salmonid Habitat Conservation Plan - priorities #3, #26, #28, #33, #35, #41, #58, and #61. We currently have partial funding for priority #3 through PSAR (18-1293).

### Key Accomplishments

*Accomplishments to be provided upon completion of Near Term Action*

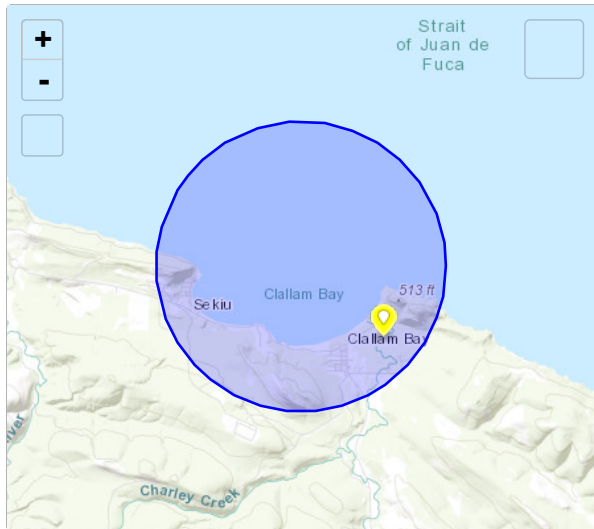

### Activity Types

- Enabling Conditions - Protection

Swamp Creek

### Location
