

Twin Rivers Acquisition

| | | | |
|----------------------------------|--|-------------------------|----------------|
| Regional Priority | CHIN7.1: Protect and/or restore critical habitat for salmon populations. | | |
| Approach | | | |
| Owner Organization | North Olympic Land Trust | | |
| Other Organizations | Coastal Watershed Institute, Lower Elwha Klallam Tribe, Makah Tribe, North Olympic Peninsula Lead Entity, Washington Department of Fish and Wildlife | | |
| Primary Contact | Michele Canale (michele@northolympiclandtrust.org) | | |
| Stage | Planning/Design | Duration | 2020 - 2022 |
| Estimated Total Cost | \$1,345,323.00 | Secured Funding | \$0.00 |
| No Funding Identified | \$0.00 | Targeted Funding | \$1,345,323.00 |
| Activity Progress | On-Track | | |
| Activity Progress Barrier | Inadequate resources: Funding not fully secured | | |
| 2018 NTA ID | 2018-0545 | | |
| Total Proposed NTA Cost | \$1,345,323.00 | | |

Continue to restore degraded fish habitat, via projects in Lead Entities' four-year work plans → Protect and/or restore critical habitat for salmon populations.

The conservation project will protect over 1/2 mile of critical, Strait of Juan de Fuca shoreline & more than 16 acres of nearshore habitat critical to out-migrating salmon, with eelgrass beds surf smelt spawning beaches. There are 2.6 miles on the west side of the West Twin River and tributaries, and the Twin Rivers is one of the most important coho and steelhead systems in the Strait of Juan de Fuca.

Targeted Puget Sound Recovery Progress Measure

No Expected Accomplishments provided
